Annex to the note verbale dated 15 June 2016 from the Permanent Mission of New Zealand to the United Nations addressed to the Chair of the Committee

Report of New Zealand on the implementation of sanctions imposed by the Security Council in its resolution 2270 (2016)

In paragraph 40 of Security Council resolution 2270 (2016), the Council called upon all States to report to the Security Council within 90 days of the adoption of the resolution, and thereafter upon request by the Committee, on concrete measures they had taken in order to implement effectively the provisions of the resolution.

New Zealand wishes to inform the Security Council Committee established pursuant to resolution 1718 (2006) that many provisions of the resolution are already being implemented through New Zealand's current policy and the existing United Nations Sanctions (Democratic People's Republic of Korea) Regulations 2006 (last amended in 2013). Implementation of the remaining provisions of resolution 2270 (2016) is well under way. In that regard, New Zealand takes note of Implementation Assistance Notice No. 2: Guidelines on the Preparation and Submission of National Implementation Reports, as most recently updated on 24 May 2016 by the Committee. New Zealand will submit an additional report to the Committee as soon as the domestic process to implement the remaining provisions is complete.
